Reasons For Allowance

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The basis for the allowability is :

Claims 1-26 recites the combination of magnetic memory device having at least one first conductive line disposed over the workpiece; a pinning layer coupled to the at least one first conductive line; a soft layer disposed over the pinning layer having sidewalls and comprising a magnetic memory cell; a first hard mask disposed over the soft layer, the first hard mask having substantially the same lateral demension as the soft layer, the first hard mask having sidewalls and top surface, first hard mask being conductive; a second hard mask disposed over the pinning layer, the top surface and sidewalls of the first hard mask, and over the sidewalls of the soft layer, wherein the second hard mask comprises substantially the same lateral dimensions as the pinning layer, wherein the second hard mask comprises SiC , SiON, SiCN or SiN; a first insulating layer disposed over at least the second hard mask, wherein the first insulating layer comprises SiC, SiON, SiCN or SiN; and at least second conductive line disposed over and abutting the first hard mask, wherein the at least one second conductive line runs in a different direction than the at least one first conductive line.

None of the art of record teaches nor suggests to combine above cited limitations in the claimed invention as a whole.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
